

T2118 4-20mA

Model: T2118

OMET T2118 is a precision pressure transmitter designed for HVAC applications. It features a stainless steel body and a high-precision sensor. The transmitter is compatible with OMET's KU68 pressure sensor.

Specifications

Operating Pressure	600 to 1100hPa
Measuring Range	800 to 1100hPa
Accuracy	±(1,3hPa+0.06%FS) at 23°C from 800 to 1100hPa
Output	hPa, kPa, mbar, mmHg, inHg, inH2O, PSI, oz/in2
Temperature Range	-10 to +50°C
Current Output	4-20mA
Power Supply	9-30Vdc
IP Rating	IP20
Dimensions	88 x 106 x 33 mm (W x H x D)
Material	ABS
Weight	150g
Life Span	3 years
